PrinfoStation™

PrinfoStation™

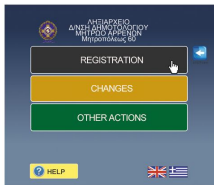

Freedom to Access and Print information and forms.
 Reduces cost and improves efficiency - example's being the Town/City Halls - Police Stations or other service offices where citizens quickly and easily using the PrinfoStation™ will have access to offered information with the ability to print information and application forms on standard A4 paper, ready to fill in, and to submit, thus limiting the need and cost to keep a lot of preprinted forms, freeing up time for workers and making the whole process more efficient.

PrinfoStation™ Software

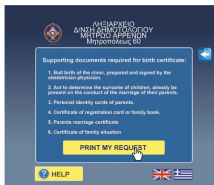

SignPro® Digital Signage software together with PrinfoStation™ printing and statistics software. LAN & WAN & Wireless access for full control and update of information.

1 You need an application form. In this case a Birth Certificate. The first screen would require you to click the "Birth Certificate" button.

2 A second screen is displayed with other choices to further target your request.

3 On the next screen, select the Print button and within a few seconds the Birth Certificate form is printed and ready to be filled and submitted. Fast - Efficient - No Mess - No Fuss!

Heavy Duty Steel Chassis

The PrinfoStation™ is constructed from sturdy Carbon Steel or Stainless Steel depending on your requirements. The Carbon Steel version is painted in a standard grey colour or in colours of your choice. The Stainless Steel Version can either be polished or brushed or in the standard grey colour or in colours of your choice.

19" Touch Screen Monitor

Colour TFT LCD flat panel monitor specifically designed for heavy duty applications. With a viewing size as large as 19", it presents an ample display area as well as vivid and sharp images.

Display Size 19"
 Resolution 1280 x 1024
 Colour 16.7M
 Viewing Angle (H/V)° 160/160
 Luminance (cd/m2) 300
 Contrast Ratio 1300 : 1

Slim B&W Laser Printer

The PrinfoStation™ is equipped with a Black and White Laser Printer. Very little maintenance is needed. The paper feed is easily accessible with easy access to paper refill.

UPS for Uninterrupted Operation

An uninterruptible power supply is fitted inside the PrinfoStation™. In case of power failure it will keep working for a minimum of one hour.

Custom Designs for your PrinfoStation™

PrinfoStation™ can be custom designed and with your colours. It has ample space for decals etc.

Get the most out of your PrinfoStation™

A Few Application areas for the PrinfoStation™

Public Library

Do not walk around looking for books in the library. Locate them with your PrinfoStation™, search for desired books, read previews, find its location together with information such as ISBN numbers and books of a similar topic.

Get a print out of all selected book titles with details where to find them in the library.

Hotels & Resorts

Guests can easily find any points of interest close to the hotel, such as restaurants, bars, stores, etc.

Print information and maps for desired locations together with information on how to get there.

Super Stores and Hyper Markets

Super stores and Hyper Markets are ideally suited to use the PrinfoStation™

Stores of this size usually have a huge selection of products covering a vast area.

Customers can pinpoint selected products of interest, get comprehensive information for desired product and print out information with the locations of each product.

A route can be mapped on the printout so the customer can efficiently move through the store in the minimum amount of time.

Mobile Phone Store

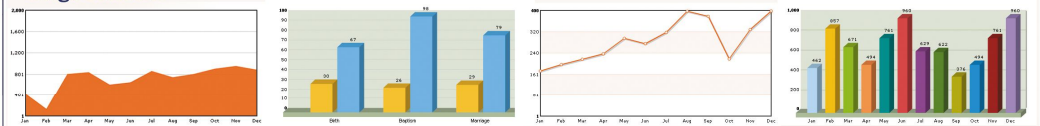

Purchase a new mobile phone.

Simply on the PrinfoStation™ check all the mobile phones available at the existing store, find the specification for each phone and select a plan that best suits you.

Print out the corresponding purchasing forms, fill them and submit them.

All the standard features of our SignPro® Digital Signage Software such as High Definition Graphics Video, Images and sound are supported.

Usage Statistics

View and Print Statistics for each individual PrinfoStation™ and/or chain of stations. Statistic Information is available in graphical and tabular format for pages accessed and for forms or other information printed over a requested time period. Access to the administrator panel is possible from any computer with an internet connection regardless of where you are.
